Math 154, Exam 3 Information, Fall 2003 (This information is also on the web.)

Exam 3 is on Tuesday, November 18th from 8:30 PM – 9:30 PM in the Hall of Music

You will be assigned a different seat than Exam 2.

Only a TI-3x calculator is allowed.

Do not ask any questions during the exam unless you think there is a typo. It is not fair for an instructor to give you a hint unless the same hint is given to all the students in the Hall.

The exam consists of 14 multiple-choice questions; covering lessons 23 though 32. You will hand in your answer sheet and leave the exam site with your exam. Your answer sheet will be the only thing graded. Answer every question, since there are no points deducted for a wrong answer. Each question is worth the same amount of points. There is no partial credit.

"None of these" will one of the choices on most of the problems.

Only the formulas from the formula sheet will be provided as the last page. All others need to be memorized. You may detach the last page when you begin the exam. The formula sheet is available at the MA 154 web page.

Previous exams are available at the course web site. Not every problem on the exam will be just like a problem from an old exam. Homework, quizzes and the review problems should be studied to be adequately prepared. The number of lessons covered on each exam varies from semester to semester. Old exams are a guide, however, be careful. All problems on the ASSIGNMENT SHEET are fair game for the exam. Do not assume that if it was not on SAGE it is not on the exam.

Contact Tim Delworth, 495-7914, immediately if you miss the exam. Only students with valid reasons will be granted alternate exams. If you know you are going to miss the exam contact Mr. Delworth as soon as possible.

BRING A PICTURE ID. If you do not have a picture id, you will have to stick around until Mr. Delworth can deal with you. BRING A PICTURE ID TO THE EXAM.

Exam 3 Review Problems: These are problems from the chapter reviews.

Page 499; 59-68, 70, 71, 72
Page 558; 1, 2, 4, 6, 7, 13, 14, 19, 20 (a, b only), 41, 42, 43, 47
Page 283; 27, 30, 34, 35

You do not have to do these, however, they are a good sampling of questions.
