

MA 154, Spring 2003
Exam 2 Grade Cutoffs

A	90
B	80
C	70
D	57

Average was 72.9
46 scores of 100
727 students took the exam

This curve is meant to let you know where you stand against the rest of the students in the course. We do not write down letter grades.

If you are close to a cutoff, regardless of which side you are on, apply a +/- to your grade. For example, if you scored a 79, your grade is C+/B-, and if you scored is a 71, you have a C-/D+. If you are in the middle of a range, then the letter grade from the curve is your grade.

If you have any questions, please feel free to email the course coordinator, Tim Delworth at delworth@math.purdue.edu.
