Math 154, Exam 3 Information, Spring 2003   (This information is also on the web.)

Exam 3 is on Wednesday, April 16th from 8:30 PM – 9:30 PM in the Hall of Music

We are sitting in the same sections as Exam 2.

No graphing calculators. If you forget your calculator, you are out of luck. You may not share or borrow someone's calculator.

Do not ask any questions of the instructors unless you think there is a typo. It is not fair to give you hints unless we plan to give the same hint to all 750 students taking the exam.

The exam consists of 14 multiple-choice questions; covering lessons 23 though 34, including part or all of sections 7.6, 8.1, 8.2, 8.3, 8.4, and 4.5. You hand in your answer sheet and leave the exam site with your exam. Your answer sheet will be the only thing graded. You should answer every question since there are no points deducted for a wrong answer. Each question is worth the same amount of points. There is no partial credit.

Only the formulas from the formula sheet will be provided on the last page. All others need to be memorized. You may detach the formula sheet from the exam if you wish.

Previous exams are available at the course web site. **Warning**: Not every problem on the exam will be just like a problem from an old exam. Homework, quizzes and the review problems should be studied to be adequately prepared. The number of lessons covered on each exam varies from semester to semester. Old exams are a guide, however, you have to be careful. All problems on the ASSIGNMENT SHEET are fair game for the exam. Do not assume that if it was not on SAGE it is not on the exam.

Contact Tim Delworth, delworth@math.purdue.edu, 494-7914, immediately if you miss the exam. Only students with valid reasons will be granted alternate exams. If you know you are going to miss the exam you have to contact Tim Delworth as soon as possible.

Bring a picture ID to all exams. If your instructor is unable to attend the exam due to a last minute emergency, a proctor will not know you. **All students need to have a picture id at every exam!**

Exam 3 Review Problems:

Page 499; 59-68, 70, 71, 72
Page 558; 1, 2, 4, 6, 7, 13, 14, 19, 20 (a, b only), 41, 42, 43, 47
Page 283; 27, 30, 33, 34, 35
Page 280; 41, 42, 43, 44 (Repeat of assigned problems)

You do not have to do these, however, they are a good sampling of questions.
