

Question #	Green Form	Answer
1	C	$(14, \square 5)$
2	A	$13 \square i$
3	D	$x$ is less than $\square 5$ $(x = \square 32)$
4	B	$59.0 < F < 122.0$
5	D	$\square \square , \square \frac{29 \square}{10 \square}$
6	A	$(x + 6)^2 + (y \square 2)^2 = 157$
7	C	$y = \square \frac{3}{5}x + 3$
8	D	$(\square 4, \square 3) \square (3, )$
9	E	$4x + 3y = 5$
10	E	$x = \square \frac{2}{3} \pm \frac{\sqrt{11}}{3}i$
11	D	$\sqrt{(a \square 4)^2 + (2a \square 3)^2} = 58$
12	B	There is one solution. It is greater than 10. $(x = 12)$
13	C	8.1 inches
14	A	$N = \square 750p + 7500$
15	B	6 inches
