This curve is meant to let you know where you stand against the rest of the students in the course. We do not write down letter grades. This exam represents the first 100 points of the 600 points for the semester. There are a lot of points still to be earned.

3 students omitted answering a question. All three are in my 9:30 class, section 1101. Next time, I will post their names and phone numbers so you can call them and 3:00 AM and make fun of them.

One student bubbled in the wrong section number and will not be able to get his/her score online. I do not know if any students bubbled in the wrong id number. If you cannot receive your score online, let me know and I will try to fix it.
