This curve is meant to let you know where you stand against the rest of the students in the course. We do not write down letter grades. This exam represents the second 100 points of the 600 points for the semester. There are a lot of points still to be earned.

Four students omitted answering a question, two in section 1101, one in section 1201, and one in section 0801. I know who you are and I will spend my spring break thinking for ways to make the lives of those four students miserable for the remainder of the semester.

I know of one student who bubbled in the wrong section number and will not be able to get his score online. I do not know if any students bubbled in the wrong id number. If you cannot receive your score online, let me know and I will try to fix it.
