This curve is meant to let you know where you stand against the rest of the students in the course. We do not write down letter grades. This exam represents 100 points of the 600 points for the semester. There are still 200 points from the final to be earned.

Four students did not answer every question, one of them managed to omit answering two questions. I just do not get it. Maybe I am getting old.

If you cannot receive your score online, let me know. Chances are you bubbled in your id number or section number improperly.
