

PURDUE UNIVERSITY

Department of Mathematics Colloquium

Speaker: Professor Harold Donnelly, Purdue University

Title: "Quantum Unique Ergodicity"

Date: Tuesday, September 28, 2010

Time: 4:30 P.M.

Place: MATH 175

Abstract

The Fields medal was awarded to Elon Lindenstrauss in August 2010. One of his most important achievements is the proof of quantum unique ergodicity for Riemann surfaces. The colloquium lecture will describe his remarkable work and its historical background.

Refreshments will be served in the Math Library Lounge at 4:00 p.m.
