**Textbook:** Linear Algebra: Ideas and Applications, by Richard C. Penny, 4th Edition, Wiley.

**Grades:** Your grade is based on a total of 600 points distributed as follows. The number of particular letter grades is based on the final exam score by using a curve.

Homework	200 pts
Midterm 1 (September 25)	100 pts
Midterm 2 (November 13)	100 pts
Final Exam (TBA)	200 pts

**Homework:** There will be 14 homework assignments. The homework must be turned in at the beginning of the class. *Please staple all pages together. Late homework will not be accepted.*

*No makeup exams will be given unless you have a valid documented excuse and notify me in advance of your absence.*

**Calculator:** Calculators will not be allowed on exams.

**Academic Adjustment for Students with Disabilities:** Students who have been certified by the Office of the Dean of Students Disabilities Resource Center as eligible for academic adjustments should go to MATH 202 with a copy of their certification letter and request an Information Sheet for this semester, that explains how to proceed this semester to get these adjustments made in Mathematics courses. It is not the same as an year ago. This should be done during the first week of classes or as soon as the student receives their letter. Only students who have been certified by the ODOS-Disability Resource Center and who have requested ODOS to send their certification letter to their instructor are eligible for academic adjustments.

Students who are currently undergoing an evaluation process to determine whether they are eligible for academic adjustments, are encouraged to find out now what procedures they will have to follow when they are certified, by requesting the above mentioned Information Sheet from MATH 202.

Large print copies of the Information Sheet are available from MATH 202 upon request.
