MA 44200, Homework 11, Due Friday, April 7, 2017

(1) Mathematical Analysis II: Page 6, #5(iv), 6.
(2) Mathematical Analysis II: Page 14, #2, 3, 3’, 13.

When solving a problem something you can use any

(1) Definitions
(2) Axioms
(3) Theorems, Lemmas, and Corollaries, and
(4) Problems (whether assigned or not)

that are either in the book or done in class that come before the problem you’re working on.
