MA 511
Linear Algebra and Applications
FALL 2007: Ground Rules

Instructor: Jaroslaw Wlodarczyk, e-mail: wlodar@math.purdue.edu
Office: MATH 602, 496-2835
Office hours: Wed 1:20 A.M. - 3:20 PM, or by appointment
Course website: http://www.math.purdue.edu/~wlodar/511/511.html

Text: Linear Algebra and its Applications, 4-th Edition by Gilbert Strand

Homeworks: Homeworks will be collected and turned in on every Thursday in class starting the second week. Late homeworks will not be accepted. The assignment mostly goes with the assignment sheet but there might be few changes which will be announced in class if there is any. The two homeworks with the lowest score will be dropped. You are encouraged to visit the instructor if you have any questions about homeworks.

Exams: There will be two midterm exams during the semester and a final exam at the end of the semester. The midterm will be given in the class and will take approx. 1hr +. Absolutely no make-up exams will be given without prior permission of the instructor. Validity of excuses is determined by the instructor. If an emergency happened on an exam day, a notice within 24 hours is required in order to make up the exam which is missed. No calculators are allowed in midterms and final exams.

Grades: The course grade will be based on the following:
- Two midterm exams: $2 \times 100 = 200$ pts
- Final exam: 200 pts
- Homework: 100 pts
- Total: 500 pts

Academic Adjustments: Students who have been certified by the Office of the Dean of Students-Adaptive Programs as eligible for academic adjustments should go to MATH 242 and request an Information Sheet for this semester, that explains how to proceed this semester to get these adjustments made in Mathematics courses. (It is not the same as last semester.) This should be done during the first week of classes. Only students who have been certified by the ODOS-Adaptive Programs and who have requested ODOS to send their certification letter to their instructor are eligible for academic adjustments.

Students who are currently undergoing an evaluation process to determine whether they are eligible for academic adjustments, are encouraged to find out
now what procedures they will have to follow when they are certified, by re-
questing the above mentioned Information Sheet from MATH 242.
Large print copies of the Information Sheet are available from MATH 242 upon
request.
