Ground Rules for MA 162, FALL 2003

Homework: In general the homework on each lesson will be due (and collected) in the first recitation after the lesson is covered in lecture.

Quizzes: There will be a quiz in every Thursday recitation class, except during examination weeks and "dead week". The quiz will be on the material in those lessons whose homework is due that week. The quiz problems will be similar to the homework problems.

Policy on Late Homework and Missed Quizzes: Late homework will not be accepted. No make-up quizzes will be given. At the end of the semester the 4 lowest homework scores and the lowest quiz score of each student will be dropped. Students who are forced to miss class for an extended period of time should see their lecturers.

Midterm Examinations: There will be three, one-hour, multiple choice, midterm exams.

Exam 1–September 18, 2003 - 7-8pm.
Exam 2–October 23, 2003 - 7-8pm.
Exam 3–November 18, 2003 - 6:30-7:30pm.

Final Examination: There will be a two-hour, multiple choice, final during exam week. The time and place will be announced later.

Grades: Course grades will be determined from your total score which will be computed as follows:

<table>
<thead>
<tr>
<th>Component</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>Homework</td>
<td>75 pt</td>
</tr>
<tr>
<td>Quizzes</td>
<td>50 pt</td>
</tr>
<tr>
<td>Three midterms@100each</td>
<td>300pt</td>
</tr>
<tr>
<td>Final Exam</td>
<td>200pt</td>
</tr>
<tr>
<td>Total</td>
<td>625pt</td>
</tr>
</tbody>
</table>

Review package: A review package consisting of old exams will be available on the webpage.

Calculators: Calculators will not be allowed on exams or quizzes. It is important that you learn to do simple manipulations by hand. A few homework problems are assigned that need a graphing calculator. The goal of these problems is to help illustrate the theory and to help you understand the power (and limitations) of graphing calculators. It is recommended that you have a graphing calculator. If you do not, you may omit these problems.

Academic Adjustments for Students with Disabilities

Students who have been certified by the Office of the Dean of Students-Adaptive Programs as eligible for academic adjustments should go to MATH 909 and request an Information Sheet for this semester, that explains how to proceed this semester to get these adjustments made in Mathematics courses. It is not the same as last semester. This should be done the first week of classes. Only students who have been certified by the ODOS-Adaptive Programs and who have requested ODOS to send their certification letter to their instructor are eligible for academic adjustments.

Students who are currently undergoing an evaluation process to determine whether they are eligible for academic adjustments, are encouraged to find out now what procedures they will have to follow when they are certified, by requesting the above mentioned Information Sheet from MATH 909.

Large print copies of the Information Sheet are available from MATH 909 upon request.

Important Dates:
Last day for a student to drop a course without it being recorded: Monday, September 8, 2003, 5:00pm.
Last day for a student to drop a course without a grade: Monday, September 22, 2003, 5:00pm.
Last day for a student to drop a course with a passing or failing grade: Wednesday October, 29 2003, 5:00pm.
