MA 153
Exam 3 Information
BRING YOUR STUDENT ID TO THE EXAM WITH YOU

Exam 3 is Tuesday, April 15 at 7:00 p.m.. It is a one-hour exam. The exam will cover Lessons 23-32 (including both lessons 23 and 32).
Location: The location of the exam is the Hall of Music. The seating arrangement is the same as it was for exam 1. See your instructor for aisle and row numbers.

There will be 15 total questions on the exam. It is a multiple-choice, machine-graded exam. There is no partial credit on any question. You will be given a question sheet and a scantron sheet. Only the scantron sheet will be graded, so it is very important that you have answered all questions and answered them the way you want.

The formulas provided on the exam, if needed, are the volume of a cylinder and the volume of a cone. You are responsible for knowing all other formulas used on homework problems.

Bring a scientific calculator with you to the exam. You will not be allowed to use a graphing or programmable calculator, so do not bring one. If you forget your calculator or the batteries run down, you will have to work the exam without a calculator. There will not be one for you to borrow and you may not use your neighbor's.

Optional Review Problems for Exam 3:
  Page 224: #51, 54abcde, 57, 59, 61, 63, 64, 66, 67, 73, 75, 77, 90ab, 92;
  Page 120: #38, 40;
  Page 238: #25, 27, 33;
  Page 648: #2, 3, 4, 64;

You may also print old exams from the MA 153 web page (answers are also available). The review problems and old exams are a good review for the exam you will be taking; however, any type of problem covered by your homework is a possibility for the exam. Also remember that the coverage on your exam may be different than the coverage on old exams.
