Homework: There will be fourteen homework assignments, due at the beginning of the first class of the following week. As a courtesy to the grader, please do the homework problems in order and STAPLE all pages together. You are encouraged to work together, but the solutions you turn in must be in your own words, it can’t be identical or nearly identical to others’. For assignments and due dates, please see the course website.

Late homework is not accepted unless you have a valid documented excuse.

Exams: There will be two in-class midterm exams and a comprehensive final exam (covering all the materials for the course). The exact time will be announced in class. Calculators, books and notes are not allowed during the exams.

No makeup exams will be given unless you have a valid documented excuse and notify me in advance of your absence.

Academic Adjustment for Students with Disabilities: Students who have been certified by the Office of the Dean of Students Disabilities Resource Center as eligible for academic adjustments should go to MATH 242 with a copy of their certification letter and request an Information Sheet for this semester, that explains how to proceed this semester to get these adjustments made in Mathematics courses. It is not the same as an year ago. This should be done during the first week of classes or as soon as the student receives their letter. Only students who have been certified by the ODOS-Disability Resource Center and who have requested ODOS to send their certification letter to their instructor are eligible for academic adjustments.

Students who are currently undergoing an evaluation process to determine whether they are eligible for academic adjustments, are encouraged to find out now what procedures they will have to follow when they are certified, by requesting the above mentioned Information Sheet from MATH 242.

Large print copies of the Information Sheet are available from MATH 242 upon request.
