The diagram illustrates a hierarchical structure of nodes, likely representing a system architecture or a data flow. The nodes are organized into rows, with some rows containing multiple nodes. A red box highlights a specific path, and a white box contains the name 'Muttaqi Alladin'.

Nodes and their connections:

- U002** and **U003** are at the top level.
- T001** through **T013** are in the second level.
- S001** through **S013** are in the third level.
- R001** through **R012** are in the fourth level.
- Q001** through **Q012** are in the fifth level.
- P001** through **P012** are in the sixth level.
- O001** through **O011** are in the seventh level.
- N001** through **N011** are in the eighth level.
- M001** through **M011** are in the ninth level.
- L001** through **L011** are in the tenth level.
- K001** through **K010** are in the eleventh level.
- J001** through **J010** are in the twelfth level.
- H001** through **H010** are in the thirteenth level.
- G001** through **G009** are in the fourteenth level.
- F001** through **F009** are in the fifteenth level.
- E001** through **E009** are in the sixteenth level.
- D001** through **D008** are in the seventeenth level.
- C001** through **C008** are in the eighteenth level.
- B001** through **B008** are in the nineteenth level.
- A001** through **A007** are in the twentieth level.

Highlighted Path and Name:

- A red box highlights the path from **U002** to **T001** to **S001** to **R001** to **Q001** to **P001** to **O001** to **N001** to **M001** to **L001** to **K001** to **J001** to **H001** to **G001** to **F001** to **E001** to **D001** to **C001** to **B001** to **A001**.
- A white box contains the name **Muttaqi Alladin**, which is connected to the node **J001** by a red arrow.
