

# MA 154, Summer 2005

## Final Exam Information

### Final Exam Cutoffs:

A	173
B	160
C	120
D	93

Average for the two classes was 154.7 out of 200, 77%. That is real good. Also, for the first time in my Purdue career, everyone answered every question.

### Course Grade cutoffs:

(out of the 600 points)

A	470
B	437
C	311
D	276

Remember how borderline cases are handled. If your total points are within 4 points of a cutoff for a higher grade, your grade is automatically moved to the higher grade. If your total points are between 5 and 12 points of the next higher grade, and you earned at least that higher grade on the final exam, then your grade is moves to the higher grade.

If you have any questions, let me know.

Thanks,  
Tim
