The homework for each lesson is due the class period following the day it is discussed in class.

The last day to drop to a lower math course is Thursday, September 21.

The last day to drop the course is Wednesday, October 25.

** You will have a daily score from August 25 to September 22 (inclusive). This score is comprised of either a short, 5 minute quiz at the end of class or the process of collecting the homework due that day and grading 1-2 problems. After September 22, the daily score will be at least twice per week. The only exceptions to days that a score will not take place are the optional attendance review days before each exam and during dead week (no quiz, but will collect homework).
