

MA 154, Fall 2007

The only calculator allowed for use on exams or quizzes in MA 154 is a single-line TI-30. The two-line and new four-line TI-30, along with all other brands and models, is not allowed.

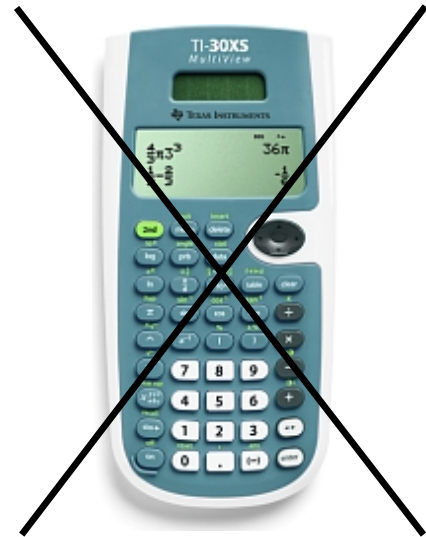

Pictured below are the three most common TI-30 calculators. Do not buy or bring the wrong one to class. Older models of the single-line TI-30 are acceptable.
