**The homework for each lesson is due the class period following the lecture. For online assignments, the homework is due by 11:55 pm the class period following the lecture.

The last day to drop to a lower level math course is Thursday, February 8.

The last day to drop the course is Monday, March 19.

** You will have a quiz at least twice per week starting Friday, January 12 (there will only be one quiz given the first week). The quiz is a short, 5-7 minute, 2-3 question quiz at the end of the class period. The only exceptions to days that a score will not take place are the optional review days before each exam and during dead week (no quiz, but homework will be hand written and collected the last week of class).

Quizzes will be given on days immediately after each exam on the material discussed that day.

Homework will occasionally be collected if done by paper and pencil.
