Text: Technical Calculus with Analytic Geometery by Peter Kuhfittig, Fourth Edition, Brooks/Cole, 2005

A **one-line scientic calculator** with logarithm and exponential functions is required. Graphing calculators or programmable calculators may not be used. Calculators which are capable of numerical or symbolic differentiation or integration are considered programmable and are not allowed. All graphs must be sketched by hand. **Questions in bold** are not on the on-line homework system but should still be attempted. They are part of the syllabus on may be examined on tests and quizzes.
