Hall of Music--See your instructor for where in the Hall of Music you should report

You will need to sit with your instructor's section.

Lessons 20-33 (inclusive)

BRING YOUR STUDENT ID TO THE EXAM WITH YOU.

15 multiple-choice, machine-graded problems

Only your answer sheet is graded so make sure you have answered all questions the way you want.

The only formulas provided on the exam, if needed, are the factoring formulas for the sum or difference of two cubes and the volume/surface area of a sphere or cylinder. You are responsible for knowing all other formulas used on homework problems.

Bring a one or two line, scientific calculator with you to the exam. You will not be allowed to use a multi-line, graphing, or programmable calculator, so do not bring one. No cell phones or PDA's. If you forget your calculator, you will have to work out the exam without one.
