**** To check the reasonableness of your grade**, distinguish the difference between getting a high C or a low C, a high B or a low B, etc. In estimating your overall grade, all your quizzes together will count 125 points at the end of the semester, 5/4 as much as a midterm exam. To broadly **estimate your quiz grade**, compare your quiz scores to the average quiz scores your Recitation Instructor gave you when they handed back your quizzes. If you are consistently near the average, your quiz grade can be estimated as being a C, above average or well above average most of the time would be estimated as a B or A, etc. For your **Online HW grade** (worth 75 points or 3/4 of a midterm exam at the end of the semester), using 90%-80%-60%-45% to estimate the letter grade would good. **Average your estimated exam letter grades with your estimated quiz and HW letter grades to get an idea of how you did.** The final grade distribution and grades will be determined as described in the ground rules for the course.
