# Calculator Policy

CALCULATORS
No calculators are allowed on quizzes and exams until after exam 2. **After Exam 2 is completed**, **a non-graphing, non-programmable, 1-line scientific calculator** is required for many problems on the quizzes and exams (a 1-line TI-30 calculator is recommended, but other 1-line scientific calculators are also allowed). **Multiple line calculators are not allowed on quizzes and exams.** We will not allow the sharing of calculators with other students.

The following calculators are examples of scientific 1-line calculators.

The following are examples of 2-line scientific calculators and will not be allowed to be used on quizzes or exams.
