

EXAM 2 LETTER GRADE ESTIMATES

A:	88 – 100
B:	78 – 87
C:	57 – 77
D:	32 – 56
F:	0 – 31

The average on the exam for all students was 62 points. Your score is available on the course web page. Note that the exam is worth 100 points, so your score is $(\#right/14)(100)$.

Note: One class was mistakenly told that using a marginal function to estimate actual change in a function would not be on the exam. For this reason, all students were given credit for the marginal profit problem on the exam. The above cut-offs reflect the new scores, and only the new scores will be loaded onto the course web page. We apologize for this confusion.
