GROUND RULES FOR MA 161M - FALL 2011

HOMEWORK: There are 35 online assignments using WebAssign

(https://www.webassign.net/purdue/login.html). Due dates and times are listed on the WebAsign CourseView by the Assignments. Generally, homework for a lesson covered in a given lecture is due at 7:00 pm on the day of the next lecture.

LATE REGISTRATION: If you have not yet registered for the course but intend to, you should ask the TA for the section you are attending to get you a WebAssign account and you should start submitting the assignments. There is a two week trial period for the WebAssign account. After that you will have to pay the (nonrefundable) access fee.

Some homework assignment problems cannot be done using WebAssign and their numbers are typed in bold-face on the assignment sheet. These problems are an important part of the homework assignment. Make sure to do them even though they will not be collected and graded. Some of these problems may appear in the midterm exams.

QUIZZES: There will be a quiz on Thursdays (as indicated on the assignment sheet), except on exam weeks. The assigned review exercises should be done before the quiz, and you should bring your work to class and turn it in together with the quiz.

MIDTERM EXAMS: There will be three evening one-hour midterm exams on the days indicated on the assignment sheet. Approximately half of the problems on each exam will be problems listed on the assignment sheet under homework assignment or review exercises, including problems that are typed in bold-face and are not done using WebAssign.

FINAL EXAM: There will be a two-hour final exam during finals week.

GRADES: Your letter grade for the course will be determined from your total semester score which will be computed as follows:

Homework
Quizzes
50 points
Three midterm exams
300 points
Final exam
200 points

Maximum possible semester score
650 points

COURSE WEB PAGE: http://www.math.purdue.edu/MA16100M

MAJOR CAMPUS EMERGENCY: In the event of a major campus emergency, course requirements, deadlines, and manner of determination of course letter grades are subject to changes that may be necessitated by a revised semester calendar or other circumstances beyond the instructors' control. Information about changes will be posted on the course web page.

ACADEMIC ADJUSTMENTS for Students with Disabilities: Students who have been certified by the Office of the Dean of Students--Disabilities Resource Center as eligible for academic adjustments should go to MATH 242 with a copy of their certification letter and request an *Information Sheet* for this semester, that explains how to proceed this semester to get these adjustments made in Mathematics courses. It is not the same as last semester. This should be done during the first week of classes or as soon as the student receives their letter. Only students who have been certified by the ODOS-Disability Resource Center and who have requested ODOS to send their certification letter to their instructor are eligible for academic adjustments.

Students who are currently undergoing an evaluation process to determine whether they are eligible for academic adjustments, are encouraged to find out **now** what procedures they will have to follow when they are certified, by requesting the above mentioned Information Sheet from MATH 242.

Large print copies of the Information Sheet are available from MATH 242 upon request.

Important Dates:

Last day for a student to drop a course without it being recorded:

Monday, September 5, 2011, 5:00pm.

Last day for a student to drop a course without a grade:

Monday, September 19, 2011, 5:00pm.

Last day for a student to drop a course with a passing or failing grade:

Wednesday, October 26, 2011, 5:00pm.

COURSE AND INSTRUCTOR EVALUATIONS

During the last two weeks of the semester, you will be provided an opportunity to evaluate this course and your instructor(s). To this end, Purdue has transitioned to online course evaluations. On Monday of the fifteenth week of classes, you will receive an official email from evaluation administrators with a link to the online evaluation site. You will have two weeks to complete this evaluation. Your participation in this evaluation is an integral part of this course. Your feedback is vital to improving education at Purdue University. We strongly urge you to participate in the evaluation system.
