We are sitting in every other seat.

Lessons 21-33 inclusive.

BRING YOUR STUDENT ID TO THE EXAM WITH YOU.

15 multiple-choice, machine graded problems

Only your answer sheet is graded so make sure you have answered all questions the way you want.

The only formulas provided on the exam, if needed, are the volume/surface area of a cylinder, sphere, and cone. You are responsible for knowing all other formulas used on homework problems.

Bring a one or two line, scientific calculator with you to the exam. You will not be allowed to use a multi-line, graphing, or programmable calculator, so do not bring one. No cell phones or PDA's. If you forget your calculator, you will have to work out the exam without one.

Exam 3 Review Problems (also on course web page):
