

MA 15300 Final Exam Information

**Thursday, August 4
10:20 pm (2 hour final)
LILY G126**

Exam is worth 200 points and covers the entire semester

BRING YOUR STUDENT ID TO THE EXAM WITH YOU

30 multiple-choice, machine graded problems

Any formula provided on any midterm would be also provided on the final exam. In addition, the two interest formulas (from Chapter 5) are also provided, if needed.

Study suggestions:

- (1) Practice final exam questions available online on MA 153 web page.**
- (2) Do the review problems that were assigned for each exam. Those problems can be found online from the MA 153 web page. Some additional review problems included from material following exam 3.**
- (3) Look over quizzes given during the semester.**

Any concept covered by homework this semester is a possibility for the exam. Do not rely solely on the practice questions as a study guide.

There will be approximately 8 questions from Chapter 5. Be sure to keep up with class and the homework from the textbook to help you practice the material from Chapter 5.
