

To prepare for Exam 1, students are encouraged to attend office hours.

Exam 1 for Math 13700 will take place on Monday, February 6, 2012 at 6:30 pm in MATH 175.

Please arrive 15 minutes early and bring your Purdue ID or some other form of photo ID.

The exam has three multiple-choice problems and ten open-answer problems for a total of 13.

The exam is worth 100 points.

Students may not ask an instructor to clarify or explain an exam question during the exam.

Review questions for the exam can be found by looking at the end of each section, after the homework problems. These are called Supplementary Learning Exercises.

The following is a suggested list of supplementary exercises to work on:

- 1.2 1, 2, 4ac
- 1.3 1, 2, 3abef
- 2.2 1, 3ac, 5
- 2.3 3, 4ab, 5, 6, 7
- 2.4 1bd, 2ac, 4
- 3.1 2
- 3.2 2, 3
- 3.3 1, 2bd, 3a
- 3.4 1, 2, 3, 4cd, 6, 8

An exam from a previous semester is available on this web page. On review day you will have the opportunity to ask questions about the old exam. The old exam is good for review purposes, but not a guarantee of what will or will not be on the exam. Do not use this past exam as your only means of studying. Your exam will cover ideas from lessons 1-10, but the format of the questions may be different from anything you have seen before.

No class will be held on Wednesday, February 8, 2012.
