

MA 22200 Midterm Exam 2 Information

Midterm exam 2 is on Tuesday, 28 February, 8:00 pm – 9:15 pm in EE 129 (Mr. Mugo) or EE 170 (Mr. Hoffman).

Your instructor will assign seats for your class and only he or she will know your assigned seat. The course webpage shows the area of the room where your class will be sitting. If you arrive more than 30 minutes late, you will not be allowed to take the exam. Instead you will have to get an alternate exam form from your instructor and may receive a 20 point penalty on your alternate exam score (unless a documented emergency prevented you from arriving on time).

Only your instructor can give you permission to take an alternate exam. To reserve your place at the alternate exam at 6:30 pm on Thursday, 8 March, you must submit an alternate exam form signed by your instructor to MATH 242 as soon as possible. If you miss the regular exam because of illness or a family emergency your instructor will ask for documentation (note from doctor, email from relative) before he or she signs the alternate exam form.

The exam is 75 minutes long and consists of 13 multiple-choice questions. The exam covers Lessons 11-18 or sections 7.7, 7.8, Chapter 7 review (which covers 7.1, 7.2, 7.3, 7.7, and 7.8), 10.1, 10.3, 10.4, 10.5 (part 1). Some formulas are provided on the exam. Only the scantron answer sheet will be graded. No regrades will be allowed for miscoded scantrons. Only one-line calculators are allowed on the exam.

Your exam score (via secure login) and letter grade estimate will be available on the course web page four days after the exam.
