

Your name: \_\_\_\_\_ Section number: \_\_\_\_\_

Find a video on YouTube that addresses the idea of symmetry – either for 2 or 3 dimensions as we have been studying in lessons 9 and 10, sections 18.1 and 18.2. The video should be one that you might use in a 6<sup>th</sup> grade classroom because it is interesting or clearly explains and demonstrates the concepts. For the quiz, write

Name of video:

Name or ID of person submitting video to YouTube:

Write a description of the video using one or two sentences.

What are two specific reasons why you think this would be valuable for 6<sup>th</sup> grade students to watch.

1)

2)
