

The final exam for Math 13700 will take place at 7:00 PM in MATH 175 on Thursday, May 2, 2013.

You will have 2 hours for the exam.

The exam will have 18 questions. Ten multiple-choice questions will be worth 7 points each. Eight open-answer questions will be worth 10 points each. Partial credit will be given on the open-answer questions only. Five questions will be from lessons 31-35. The remaining questions are from the first 30 lessons.

Helpful hint: the answer “None of the above” is sometimes used, but not often.

No calculators will be allowed. It is good to arrive 15 minutes early. Of course, bring your photo ID.

The following is a list of recommended problems from sections 10.4-11.4 of the Supplementary Learning Exercises. These are the sections covered during lessons 31-35, after exam 3.

Page	Section	Problem numbers
	10.4	back on page 199, Activity 7 (and properties of addition as well)
207	11.1	2, 3, 4, 9, 11, 12, 14
212	11.2	3ae, 4, 7, 8, 9a, 11
220	11.3	1ab, 3aeh, 4ad, 5fh, 6
227	11.4	3
