

MA 15800 Exam 2 Memo
Monday, October 20, 2014
6:30pm in ELLT

1. Exam 2 covers sections 3.7, 4.1-4.3, 4.5, 5.1-5.4 (Lesson 11-20)
2. The exam will consist of 15 multiple-choice problems. The exam is machine graded, so there will be **no partial credit** available. Word problems will be an important part of the exam.
3. Only a **one-line scientific calculator** is allowed on this exam. No other calculators (two-line, graphing, etc.) are allowed. If you are unsure if your calculator is “legal,” check with your instructor **BEFORE** the day of the exam.
4. Since the exams will be machine graded, the only thing that will be graded is the scantron answer sheet. You must keep the exam form. Double check what you are turning in to make sure you have the correct section number and test form number reported and bubbled in. **We cannot grade anything on your answer sheets.**
5. The following are review problems:
p.272 #9, 26, 27, 29, 30, 31, 32, 33, 34, 35, 39, 40, 46
p.342 #2, 5, 7, 9, 11, 14, 17, 21, 23, 25, 28, 30, 43, 45, 46, 53, 56, 59, 62
REMEMBER, these review problems are a limited selection of problems. Looking over all of the homework problems assigned is the best way to get a feel for what material could appear on the exam.
6. Copies of previous MA 15800 exams can be obtained from the math exam archive, which can be found on the course webpage. Note that the old exams do not cover all of the available material. Looking over all of the homework problems assigned is the best way to get a feel for what material could appear on the exam.
7. Please reread the section on the syllabus regarding exams.
8. You **must** use your 10 digit Purdue ID number on the exam scantrons.
9. You **must** bring your Purdue ID to the exam.
10. If you miss the exam, you need to contact the course coordinator immediately (norris@purdue.edu, MATH 810). Do **not** wait until the next class session to contact the instructor.
11. The exam is self-explanatory. Instructors and proctors are not allowed to interpret any of the questions for any student.
12. Any student that **does not** have a **valid, documented reason** for missing an exam *may* still be allowed to sign up for the make-up exam with a grade penalty. Carelessness in knowing the correct time/place of the exam will not be a valid reason for missing the exam.
13. During the exam, no student is permitted to leave before the first 20 minutes of the exam. No student is allowed to come in and take the exam after the first 20 minutes. If a student shows up more than 20 minutes late, they should speak directly to the course coordinator about possibility of taking the make-up exam. If they do not have a valid and documentable reason, it will be with a grade penalty.
