

Final Exam Information

Wednesday, December 16 at 8:00AM in the Elliott Hall of Music

Every student will have an assigned seat. Seat assignments will be sent out via Purdue email the night before the exam.

BRING YOUR STUDENT ID

You will have 2 hour to complete 30 multiple choice questions covering [lessons 1 – 38](#).

Once the exam begins, you cannot leave for the first 20 minutes. Once you leave, you cannot continue the exam.

The exam answer sheet must be completed in pencil.

The factoring formulas for the sum/difference of cubes and the formulas for compound interest will be provided, if needed. You are responsible for knowing any other formulas used on the homework.

ONLY a TI-30Xa calculator is allowed on the exams; nothing else.

Your calculator cover must be put away during the exam. Review the instruction sheet before arriving, if necessary.

If you require accommodations, read through the [Information for Students taking Accommodated Exams](#) and register at least 1 week before the exam.

The exam will consist of 10 – 12 questions covering the new material (Lessons 33 – 38) and 18 – 20 questions covering the old material (Lessons 1 – 32). Past Final Exam problems are available by going to math.purdue.edu/MA153 and clicking on the [Past Exams](#) link. A Practice Final Exam, along with Exams 1, 2, and 3 from this semester, are also available at math.purdue.edu/MA153. There are also Final Exam problems from the spring semester and summer session available in LON-CAPA by clicking on Contents -> Equations Part 2, and then click on Final Exam Problems from Spring 2015 or Final Exam Problems from Summer 2015.

Review Recommendations

1. Go over each of the [Past Final Exam problems](#) with test conditions (no notes, no computers, no friends, no tutors, etc., just you, a TI-30Xa calculator and a pencil). Mark the problems you are unable to solve and review those lessons.
2. Go over each of the [Practice Final Exam problems](#) with test conditions and mark the problems you are unable to solve. Review those lessons that those problems are from.
3. Go over each of the [Final Exam problems](#) in LON-CAPA with test conditions. Again, mark the problems you are unable to solve and review those lessons.
4. Redo [Exams #1, 2, and 3 from this semester](#) with test conditions.
5. Make sure that you are able to solve all of the above problems on your own before the exam. If you received help on any of the above problems, be sure to go over them again on your own.

**BE SURE TO BEGIN
PREPARING FOR THE EXAM
AS SOON AS POSSIBLE;
NOTHING WILL AFFECT
YOUR OVERALL COURSE
GRADE MORE THAN THE
FINAL EXAM.**

**A help session will be
held Tuesday,
December 15th from
5:00pm to 7:00pm in
WTHR 200**
