

You may use a Purdue Computer in one of the campus iTap labs, or use your home computer. As long as you have the **newest version of Adobe FlashPlayer (version 11.9)** installed, your computer should be able to access the site. **Always use a Purdue iTap Computer if you experience problems using your personal computer.**

Address for online HW

www.pearsonmylabandmatering.com

Purdue zip code: 47907

Course ID: bailey42156

If you **have used** MyMathLab before, follow the steps in the PowerPoint (found at www.math.purdue.edu/MA15910) for enrolling in a new course. You will login with your usual MyMathLab username and password.

If you **have never used** MyMathLab before, follow the steps in the PowerPoint (found at www.math.purdue.edu/MA15910) for registration for MyMathLab.

All students need to view the PowerPoint slides (found on the course web page, www.math.purdue.edu/MA15910) that describe the features of MyMathLab; how to work homework, how to view the online grade book, how to review, how to see the online textbook, etc.
