

## **MA15300Y WebAssign Homework Bonus**

Any homework problems that are successfully completed at least 6 hours before the deadline will receive a 10% bonus (for instance, a score of 80% becomes an 88%). Students can still complete any remaining problems before the deadline to improve their scores, but they will NOT receive any additional bonus.

Example: The Lesson 1 homework assignment is due on Wednesday, January 14<sup>th</sup> at 11:55PM. Any problems from the Lesson 1 assignment that are successfully completed by Wednesday, January 14<sup>th</sup> at 5:55PM (6 hours before the deadline) will receive a 10% bonus. After that, students will still have 6 hours to complete the assignment before the deadline, but they can no longer receive bonus points on that assignment.

**There will be no bonus on any of the online quizzes.**

## **MA15300Y WebAssign Homework Penalty**

Most multiple choice problems will include a penalty for an incorrect response. If a multiple choice question has only two options, a 50% penalty will be enforced for answering the question incorrectly on the first try. For multiple choice questions with more than two options, students receive one free attempt, and then a 50% penalty is enforced for answering the question incorrectly on the second try.

Example: If a multiple choice question has only two options, and a student selects the incorrect option on their first attempt, the student can re-attempt the problem to select the other option, but they will only receive half-credit for the correct answer on their second attempt. If a multiple choice question has three (or more) options, and a student selects an incorrect option on their first attempt, the student can re-attempt the problem to select one of the other options WITHOUT penalty. If the student selects an incorrect option on their second attempt, they can re-attempt the problem again, but the most they can receive for a correct answer is half-credit.

**Each problem from the online quizzes will have only one attempt, so there will be no multiple choice penalties.**
