

## **Information for Students taking Accommodated Exams**

### **How do I register for an accommodated exam?**

- Students who have been certified by the Disability Resource Center (DRC) as eligible for academic adjustments on exams should visit the Mathematics Exam Registration website and enter their Purdue username and password to register for an accommodated exam. (There is a link to Mathematics Exam Registration website at the bottom of the course web page ([www.math.purdue.edu/MA22000](http://www.math.purdue.edu/MA22000))).
- These students will take their exams on the same date and at the same time as every other student, but they will take their exams at a separate location. All the necessary information will be available after entering their Purdue username and password.

### **Do I need to make an appointment with the DRC?**

- No. Do not go to the DRC website and try to schedule an accommodated exam using their online system. If you have been certified by the DRC as eligible for academic adjustments on exams, all the information you need will be available by simply logging in to the Mathematics Exam Registration website using your Purdue username and password.

### **What do I do if I receive a blank screen after logging in?**

- If you login and receive a blank screen, that means you are NOT certified by the DRC as eligible for academic adjustments on exams, and you will be taking your exams with the rest of the students. Go to the MA 22000 website and read through the Exam Memo Sheet for more information regarding where to go for the exam, when to report for the exam, what to bring to the exam. If you believe you should have accommodations, contact the DRC.
