

The final exam for Math 13700 will take place Thursday, May 4, 2017 from 8:00 – 10:00 am in ARMS B061.

The exam will have 18 questions. Ten multiple-choice questions will be worth 7 points each. Eight open-answer questions will be worth variable points. Partial credit will be given on the open-answer questions only. Six questions will be from lessons 30-35. The remaining questions are from the first 29 lessons.

Helpful hint: the answer “None of the above” is sometimes used, but not often.

No calculators will be allowed. It is good to arrive 15 minutes early. Of course, bring your photo ID.

The following is a list of recommended problems from sections 10.4-11.5 of the Supplementary Learning Exercises.

Page	Section	Problem numbers
196	10.4	1
200	10.5	1, 4
	10.6	back on page 204, Activity 11 (and properties of addition as well)
214	11.1	2, 3, 4, 9, 11, 12, 14
219	11.2	3ae, 4, 7, 8, 9a, 11
227	11.3	1ab, 3aeh, 4ad, 5fh, 6
234	11.4	1, 3
