**Calculators:** Calculators will not be allowed on exams or quizzes. It is important that you learn to do simple manipulations by hand. A few homework problems are assigned that need a graphing calculator. The goal of these problems is to help illustrate the theory and to help you understand the power (and limitations) of graphing calculators. It is recommended that you have a graphing calculator. If you do not, try using the graphing program <http://math.hws.edu/xFunctions/>.

**Important Comment:** Class attendance is expected. Reading the sections in the textbook ahead of time is recommended.

**Academic Adjustments:** During the summer session accommodations for your exams are managed between the instructor, student and DRC Testing Center. Students should see instructors outside class hours—before or after class or during office hours—to deliver their Accommodation Memorandums and discuss their accommodations.

**Academic Honesty** Purdue prohibits academic dishonesty. According to University policy cheating, plagiarism, lying, and deceit in any of their diverse forms (such as the use of substitutes for taking examinations, the use of illegal cribs, plagiarism, and copying during examinations) is dishonest and must not be tolerated. Moreover, knowingly to aid, abet, directly or indirectly, other parties in committing dishonest acts is in itself dishonest. If found guilty of academic dishonesty, possible penalties include a failing grade, a warning, probation, probated suspension, suspension, or expulsion. For more details about the Purdue Policy on academic dishonesty see: <http://www.purdue.edu/odos/osrr/academicintegritybrochure.php>

**Diversity Welcome** Purdue University is committed to maintaining a community which recognizes and values the inherent worth and dignity of every person; fosters tolerance, sensitivity, understanding, and mutual respect among its members; and encourages each individual to strive to reach his or her own potential. In pursuit of its goal of academic excellence, the University seeks to develop and nurture diversity. The University believes that diversity among its many members strengthens the institution, stimulates creativity, promotes the exchange of ideas, and enriches campus life.

**Campus Emergency Information** In the event of a major campus emergency, course requirements, deadlines and grading percentages are subject to changes that may be necessitated by a revised semester calendar or other circumstances beyond the instructor's control.

**Online Course Evaluations** You will be provided an opportunity to evaluate this course and your instructors. You will receive an official email from evaluation administrators with a link to the online evaluation site. Your feedback is vital to improving education at Purdue.
