

## Instructions for MA16010 Exam 1 with ProctorU

1. Bring a photo ID to the exam.
2. Students can use a one-line display hand-held calculator and/or a computer built-in calculator. No online calculators are allowed.
3. During the exam, students are not allowed to have any other programs or websites open while the exam is in progress, except LON-CAPA and a computer built-in calculator in **the standard or the scientific view**. **When in the scientific view, you will see more functions when you click on the “inv” or the “↑” button, depending on what kind of computer/calculator you have. For example, you will need to click on the “inv” or the “↑” button to see the natural exponential function.** You are strongly encouraged to practice with the calculator that you are going to use for the exam (either one-line hand held or the computer built-in) to get comfortable with it.

4. The exam is closed book and closed notes.
5. You can bring multiple pages of blank scratch paper to the exam. The proctor will ask you to destroy your scratch paper before you end the session with ProctorU.
6. To start the exam, student logs into LON-CAPA at <https://www.loncapa.purdue.edu> using their Purdue career account info.
7. Student accesses Exams (folder)–MA16010 Online Exam 1 Summer 2020–Exam\_1\_sign\_up.problem.
8. ProctorU enters their authentication credentials to unlock the exam.
9. Student clicks “Show Resource” and “OK” for the timer to begin.
