

MA16020 Distance/Online Learning is Different

- a. No physical meetings at all. Students learn the material primarily through watching the lecture videos and reading the etext online in LON-CAPA.
- b. Help is primarily provided through Piazza, an online discussion forum.
- c. Graded work includes only exams and homework. There are no quizzes.
- d. Exams will be taken **through an online proctoring service (ProctorU, for a fee).**

NOTE: For taking the exams online you will need an EXCELLENT internet connection for those to work. Google and find ProctorU's website, test your connection and system and ask THEM questions.

Special Note: Distance/Online students will have to be able to work independently and must be very proactive to be successful.
