

## MA 151 Exam 3 Memo

**Exam 3--Thursday, November 8 – 7:00pm to 8:00pm -- Elliott Hall of Music**

1. Make sure you know what rows, floor, and aisles of Elliot Hall of Music your section is in. You will sit in the same place as you did at exam 2. The time and place of each exam is also posted on the bulletin board outside of MATH 242.
2. Exam 3 covers Sections 4.3 to 6.1. This coverage is Lessons 25 to 33.
3. The exam will consist of 8 problems. **Students will have the possibility of receiving some limited partial credit on all the exam problems.** Emphasize that word problems will be an important part of the exam.
4. The following Review Problems should be given to your students:
5.     p.290—27, 29, 30, 33, 42  
       p.348—3, 6, 8, 11, 15, 17, 19, 22, 27, 33, 37, 38, 46, 47, 48, 49, 56, 64  
       p.442—1, 2, 3, 4, 57

**Remember, these review problems are a limited selection of nice problems, looking over all of the homework problems assigned is the best way to get feel for what material could appear on an exam.**

6. The students can get copies of previous MA 151 exams **from the webpage** or in PMU 157. Remind students that the old exams do not cover all of the material. **Looking over all of the homework problems assigned is the best way to get feel for what material could appear on an exam.**
7. **Remind students they must show correct work to receive credit on all problems.** You should also tell students to label the units on word problems (labels are worth 1-2 points per problem).
8. **Tell students to bring their student IDs with them to the exam.**
