

**Minimal Acceptable Work Area
Safety Standards for the repair,
replacement or installation of any
computer system(s)**

POLICY X.X.X

Volume V, Information Technology
Chapter 6, Acceptable Safety Work Locations
Issuing Office: Department of Mathematics
Responsible Officer: Daniel P. Shaw
Responsible Office: IT Group / Mathematics
Originally Issued 04/05/2005
Most Recently Revised [Month Day, Year]

Statement of Policy

The Purdue Mathematics Information Technologies personnel will require that any office or work space have a minimal acceptable safe work area when repairing, replacing or installing any computer systems, components or peripherals. The work area should adhere to OSHA regulations. If not, it will be up to the individual doing the work to take a risk assessment and determine if they want to start or continue the work. If the individual doing the work does determine the risk is too great it is then required of them to contact their immediate supervisor and individual who has requested the work.

Reason for Policy

This policy is to provide a standard safe work area for the Purdue Mathematics Information Technology Staff.

Who Should Know This Policy

Business Office Staff
Deans
Directors / Department Heads / Chairs
Faculty

Administrative and Professional Staff
Clerical and Service Staff
Graduate Students
