**Instructions:**

- ◆ You must use a #2 pencil on the answer sheet.
- ◆ On the answer sheet, fill in: (This has to be correct to find your score online.)
  - a) Your last name, first name and middle initial and blacken the appropriate spaces.
  - b) Your section number and blacken the appropriate spaces.
  - c) Your 10-digit student identification number and blacken the appropriate spaces.
  - d) Fill in the test/quiz number with **01** and blacken in **01**.
  - e) Sign your name at the bottom of the answer sheet.
- ◆ Make sure that the cover of this exam matches the color of your answer sheet. If you are color blind, ask the person sitting next to you for assistance.
- ◆ There are 15 questions. On the answer sheet, blacken your choice of the correct answer in the spaces provided for questions 1-15. Do all of your work on the question sheets. Turn in the answer sheet when you leave and keep the question sheets. Only the answer sheet will be graded. Do not walk out of the Hall without turning in your answer sheet!
- ◆ All questions are worth the same. Please answer every question. No points will be deducted for wrong answers, so why would you not answer every question?
- ◆ A TI-30 XA, one-line calculator may be used. No other calculator is allowed.
- ◆ Besides your calculator, all other electronics devices must be turned off and out of sight.
- ◆ No books or papers are allowed. You cannot bring in a unit circle or a formula sheet.
- ◆ The exam is self-explanatory. Do not ask questions about any of the exam problems unless you feel there is a typo.
- ◆ Exam answers will be posted on the MA 15400 course web page about two hours after the exam. Exam scores will be posted in the grade book in WebAssign about two day after the exam. Please check your exam score online before the next exam. The posted score is the official score.
