

## Printer Setup in Windows XP

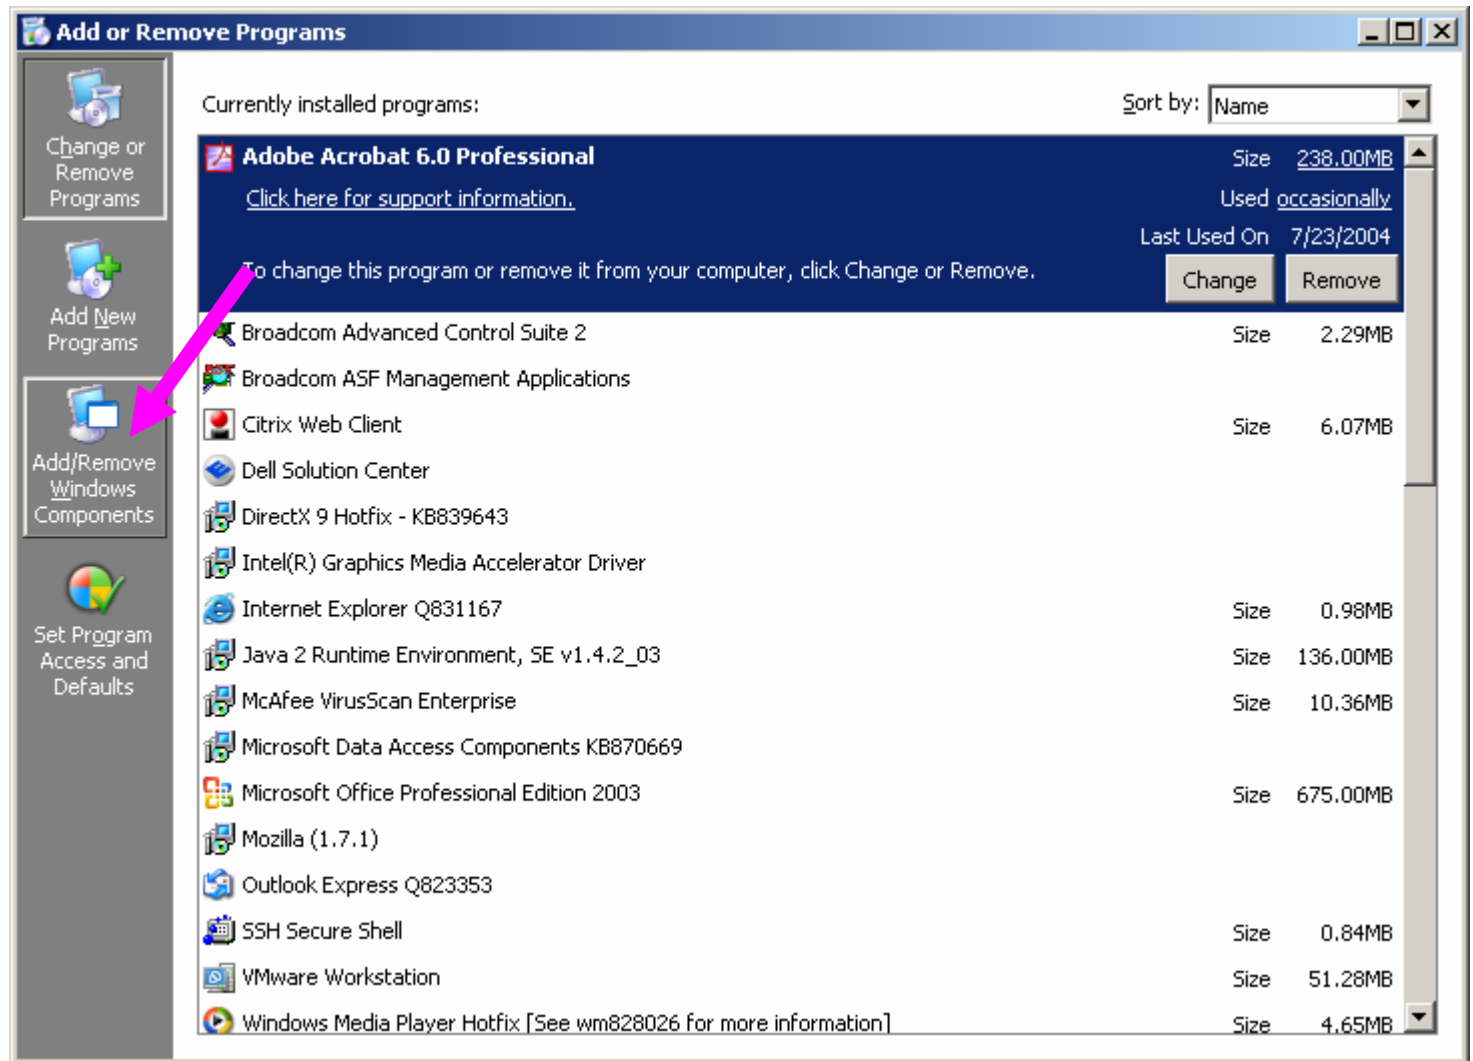

To print to the math department printers in Windows XP, “Print Services for Unix” must be installed.

To begin installation of “Print Services for Unix” double click “Add or Remove Programs” in the Control Panel.

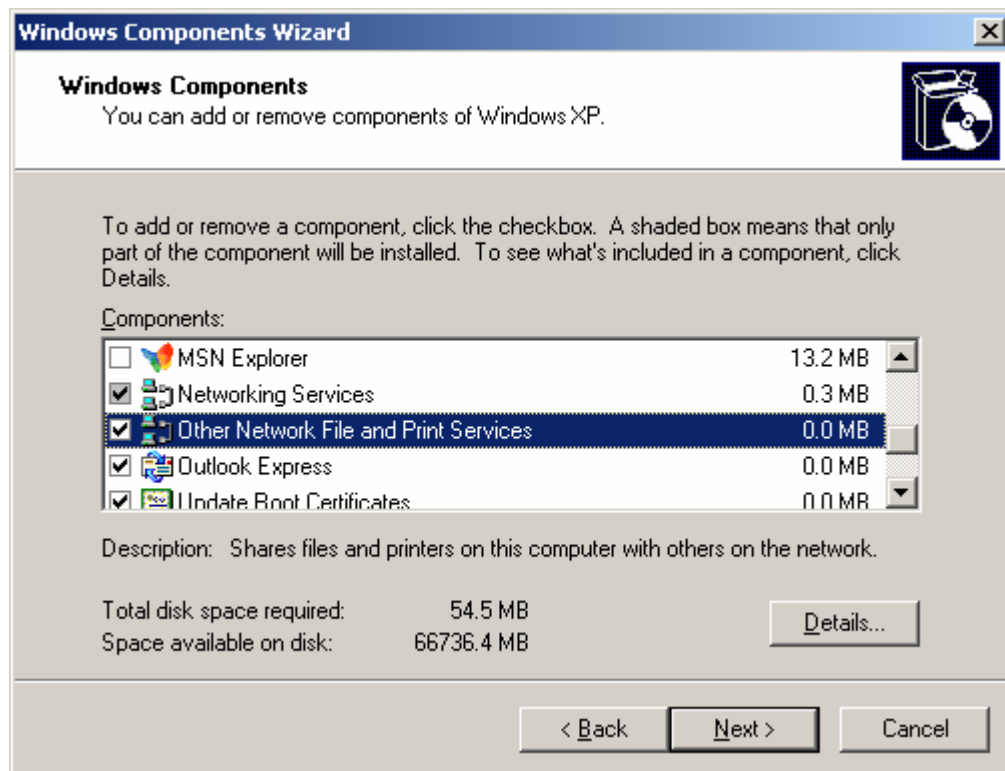

Click the "Add/Remove Windows Component" button along the left side of the window.

This will load the "Windows Component Wizard".

Scroll through the list of components and check the box next to "Other Network File and Print Services".

Click the "Next" button.

The wizard will proceed to install "Print Services for Unix".

*It may ask you for your Windows XP installation disk to continue.*

*If you do not have a Windows XP installation disk, let us know and we can help.*

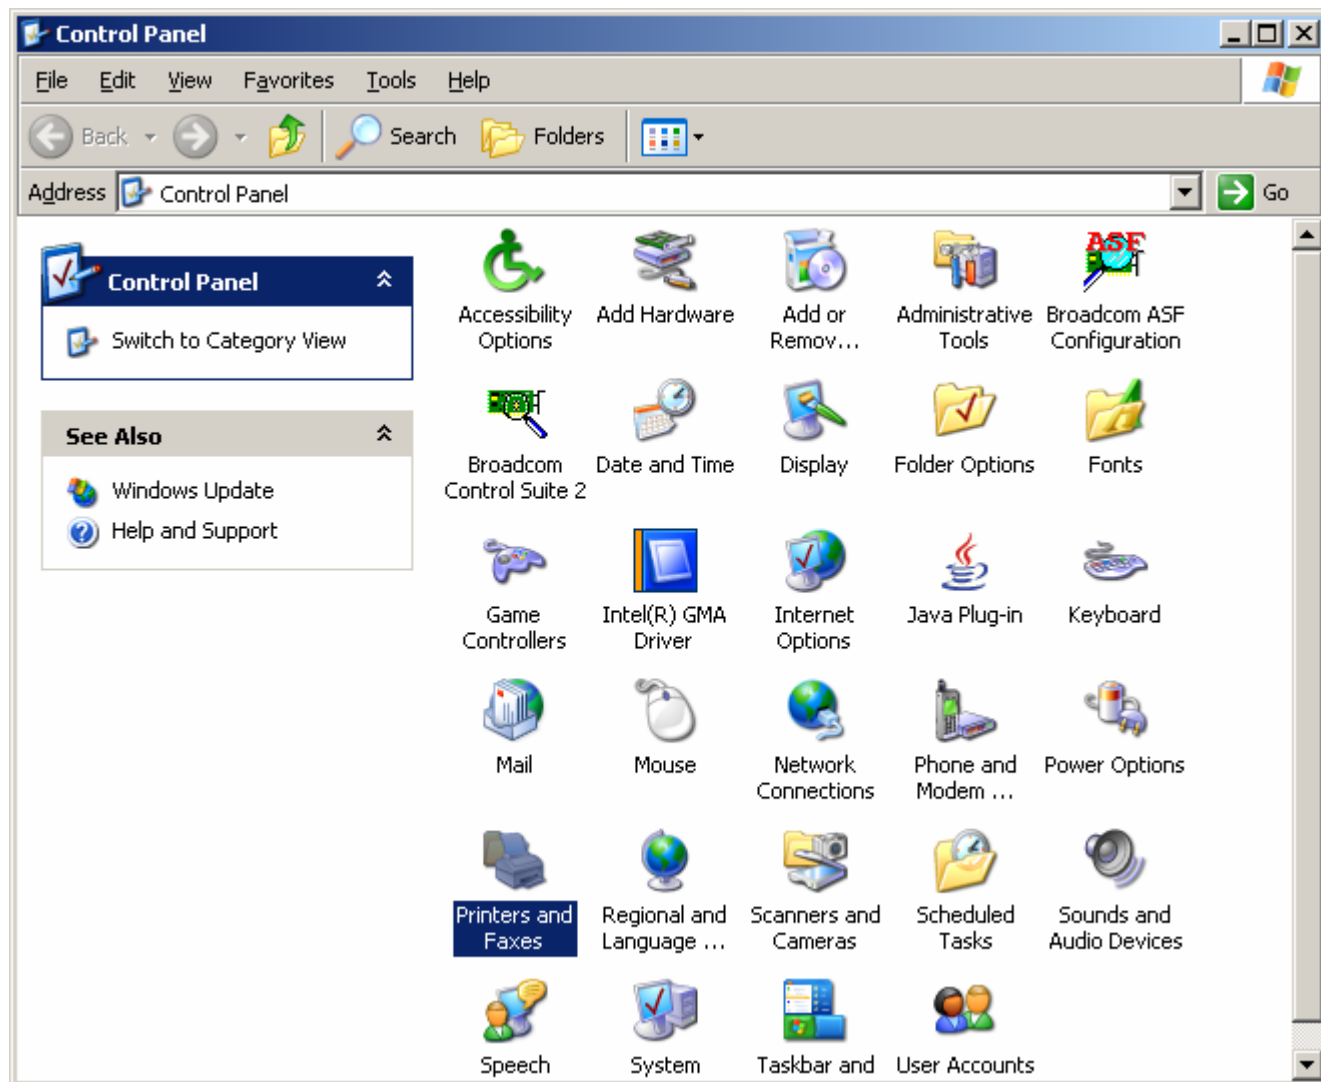

Click "Finish".

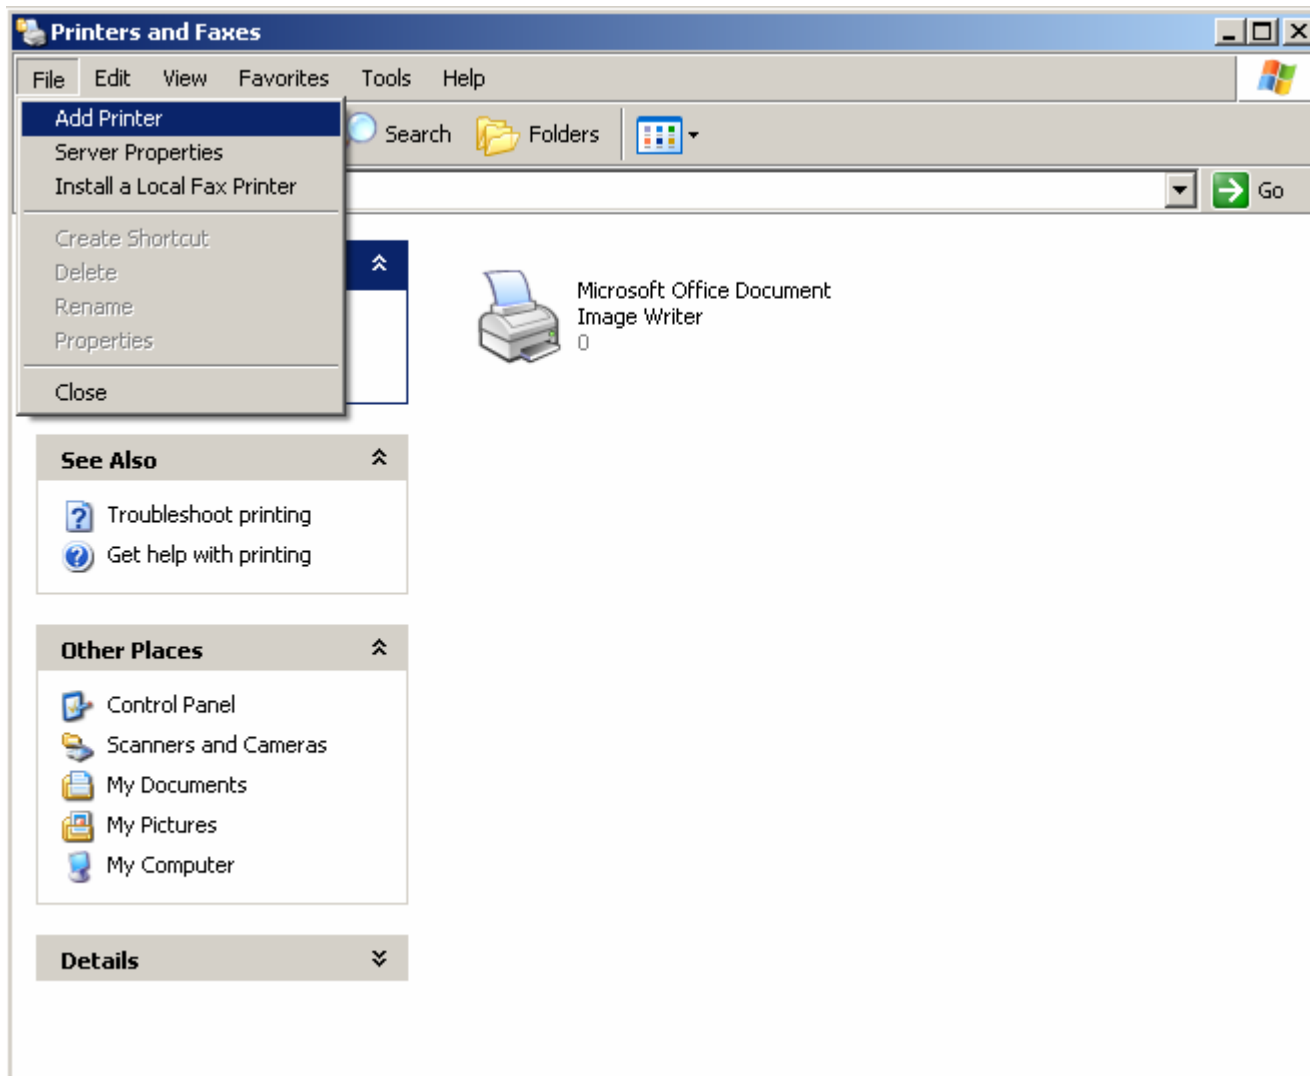

Once "Print Services for Unix" has been installed, you can setup a printer.

In the Control Panel, double click "Printers and Faxes".

To add a printer click FILE | ADD PRINTER.

This will load the "Add Printer Wizard".

Click "Next".

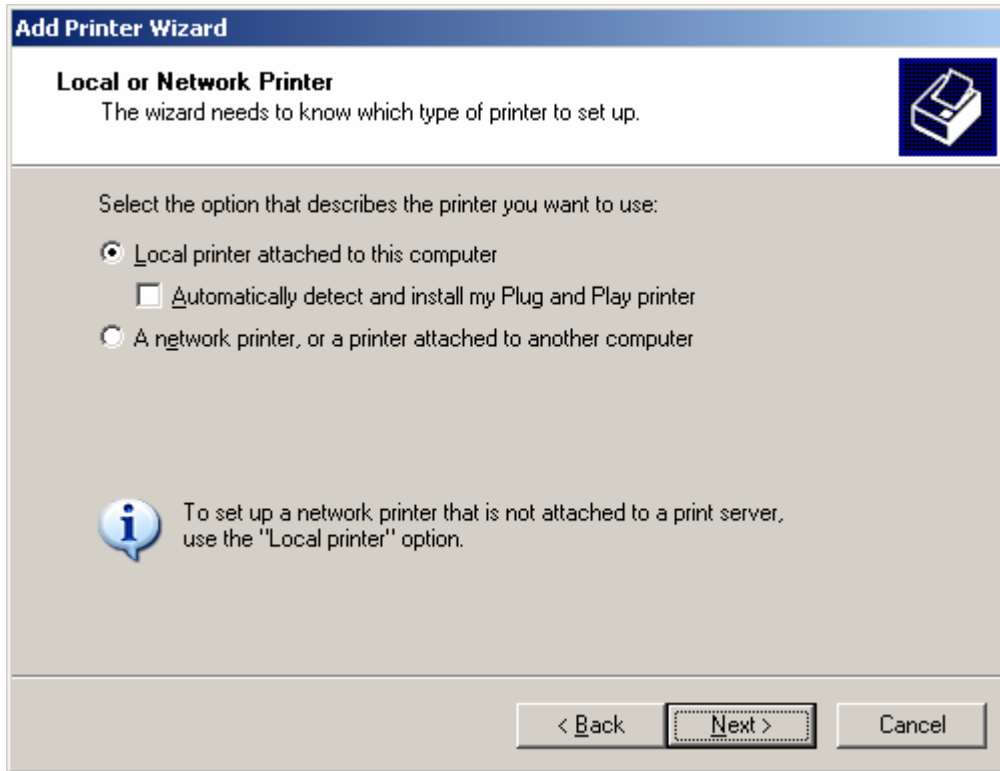

Click the option "Local printer attached to this computer".

Uncheck "Automatically detect Plug and Play printers".

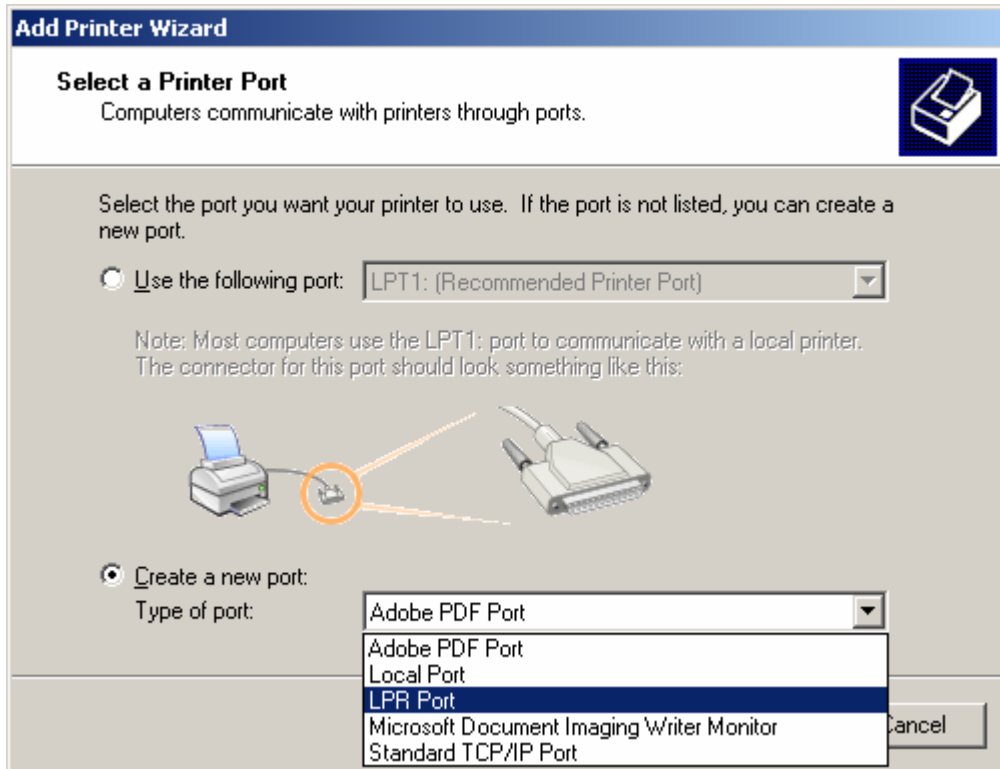

Click "Next".

Select the option "Create a new port".

In the "Type of port" drop down box, select "LPR Port".

Click "Next".

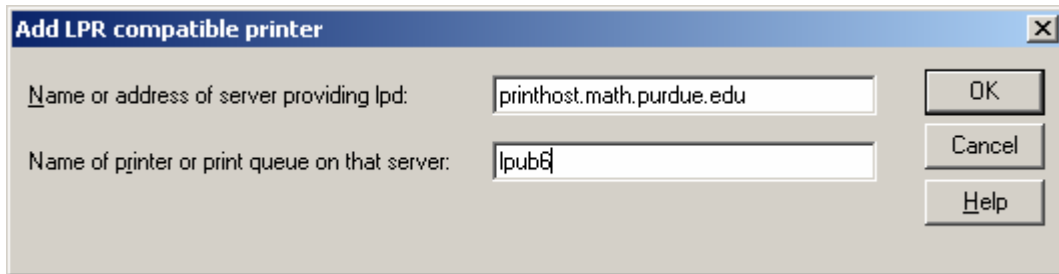

In the "Name or address of server providing lpd" text box enter  
printhost.math.purdue.edu

In the "Name of printer or print queue on that server" text box enter the name of the printer.  
For example: lpub9 or lpub6.

Refer to the "Printers" page on the Computing Resources website for a list of printers.

Click "OK".

**Add LPR compatible printer** [X]

Name or address of server providing lpd:

Name of printer or print queue on that server:

Help

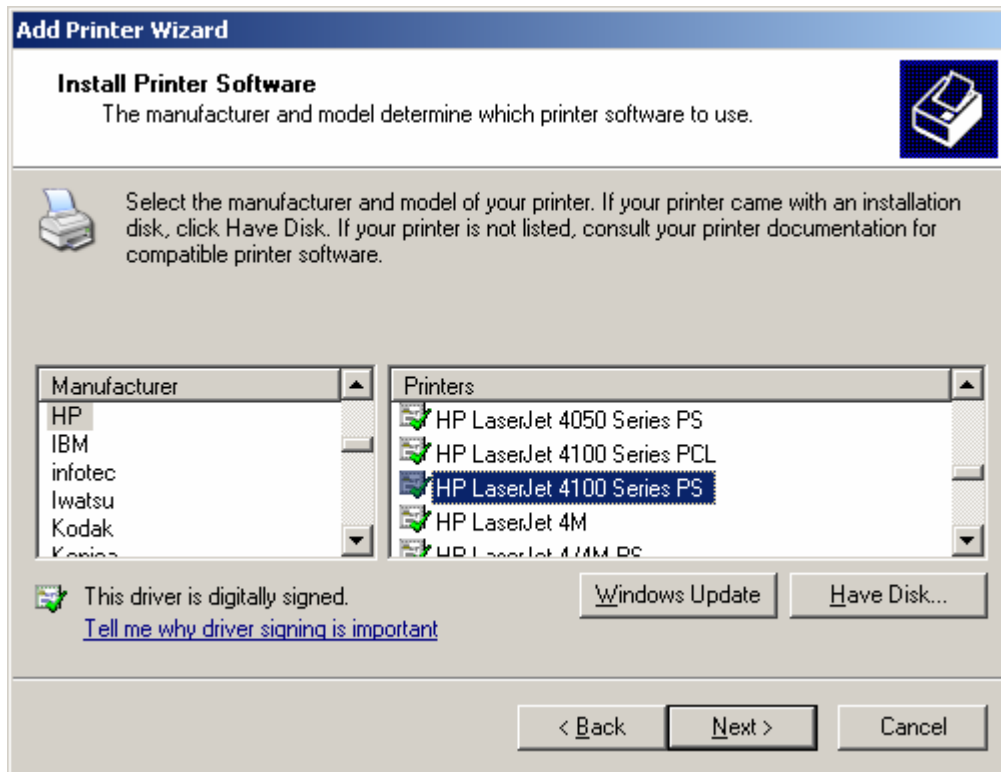

---

Select the **correct driver** for the printer you are setting up.

You may have to download the drivers from the printer manufacturer's web site.

Refer to the "Printers" page on the Computing Resources website for a list of printers.

Click "Next".

Enter a printer name for the printer.

Select whether or not to make this the default printer.

Click "Next".

**Add Printer Wizard**

**Name Your Printer**  
You must assign a name to this printer.

Type a name for this printer. Because some programs do not support printer and server name combinations of more than 31 characters, it is best to keep the name as short as possible.

Printer name:

Do you want to use this printer as the default printer?

Yes  
 No

< Back    Next >    Cancel

Choose either "Yes" or "No" to print a test page.

Click "Next".

**Add Printer Wizard**

**Print Test Page**  
To confirm that the printer is installed properly, you can print a test page.

Do you want to print a test page?

Yes

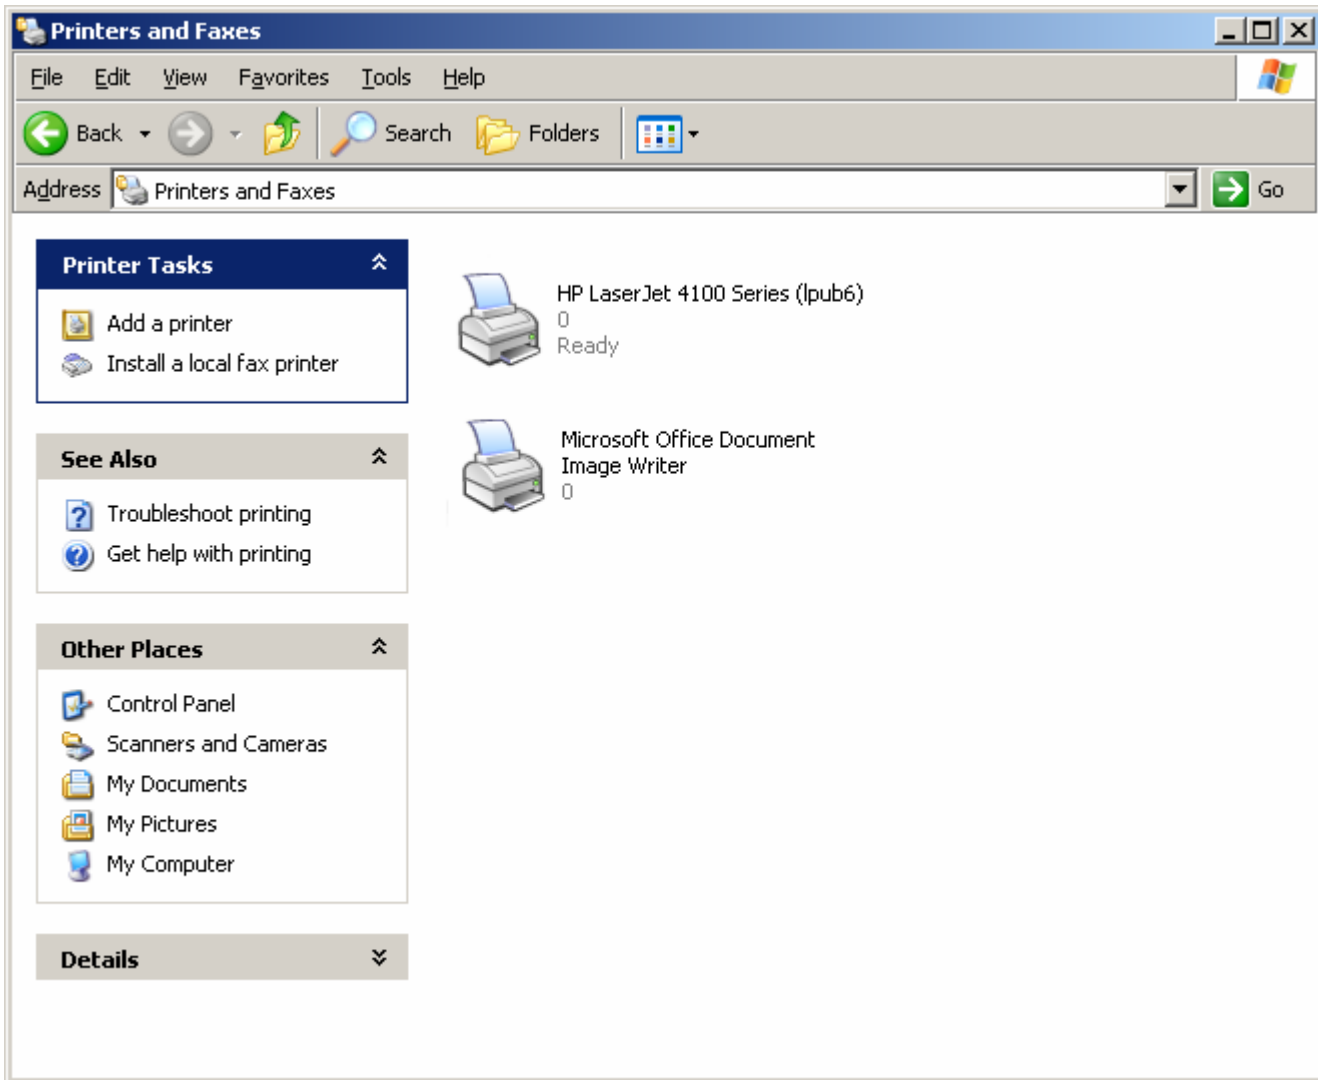

No

< Back   Next >   Cancel

Click "Finish".

The printer should now be in the printer list.
