Quiz 20 — MA161 — November 28, 2018 Alden Bradford

- 1. (10 points) $f''(x) = \cos x \sin x$, f'(0) = 0, and $f(\frac{\pi}{4}) = 0$. Find $f(\frac{\pi}{2})$. You must show all necessary work on this problem to receive credit.
- 2. (10 points) Any answer here receives credit.
 - (a) What is one topic that you are worried about (or think you need to study more) on the final exam?
 - (b) What is one topic that you feel confident in (that you think you don't need to focus on)?
