

Assignment for August 29

- Prior to August 29, you are to read Chapters 3 and 4 from the SOA Experience Studies Reference Manual. You do not need to read Sections 4.2.2, 4.2.3, 4.3.2, and 4.4.2.
- After you read the material, working as a group, you should complete Exercise 1. Each group may submit the project to the Team TA three times. The TA will tell you if the values are correct.
- Try to automate the process for Exercise 1 using either Excel or R. In class on August 29, you will complete a similar but much larger Exercise. It will be difficult to complete this process unless it is an automated process.
- There will be a quiz on the reading material and the exercise on August 29.
