

# Workshop on Inverse Problems in Scattering and Imaging

Time: 8:30am - 5:00pm, Saturday, April 23, 2016

Location: Beering Hall (BRNG) 1245, Purdue University, West Lafayette

This workshop seeks to bring together researchers in various fields that involve inverse problems in scattering and imaging. It aims to offer a comfortable and spirited gathering at a small scale to promote exchange of ideas between colleagues in modeling, analysis, and computation of inverse problems along with applications, and to explore future research directions.

## Invited Speakers

Prof. Gang Bao  
School of Mathematical Sciences  
Zhejiang University

Prof. Liliana Borcea  
Department of Mathematics  
University of Michigan

Prof. Jianliang Qian  
Department of Mathematics  
Michigan State University

Prof. John Schotland  
Department of Mathematics  
University of Michigan

Prof. Gunther Uhlmann  
Department of Mathematics  
University of Washington

Prof. Haomin Zhou  
School of Mathematical Sciences  
Georgia Institute of Technology

Organizers: Peijun Li, Jie Shen (Chair), Plamen Stefanov
