

# Survey

You will receive an email **Thursday at 10 AM** inviting you to complete the student perception survey for STEAM.

The survey will come from [STEAMSurvey@purdue.edu](mailto:STEAMSurvey@purdue.edu).

The subject header says, “We are interested in your perceptions of your course.”

It will **close** next Friday (**January 26**) at **5:00 p.m.** and late entries will not be accepted.

If you did not receive the email about the survey, please check your spam filters.

If you are convinced they did not receive it, you can tell them to write to [STEAMsurvey@purdue.edu](mailto:STEAMsurvey@purdue.edu).

Note that students are often enrolled in more than one STEAM course. For example, commonly students are taking MA 162 at the same time as PHYS 172. Any time students are enrolled in multiple STEAM courses, they will receive multiple STEAM surveys. It's important that they complete them all. Students may get confused and think they already completed “the survey” but they may have done it for one class, but not the other.
